

United Church Held Annual Meeting Tues.

Revenue Shows Increase Over
1929. Three New Members
on Management Board

The annual congregational meeting of St. Paul's United Church was held on Tuesday evening, with one of the largest attendances on re-

cord. The financial statement showed that there had been increased revenue during 1930. The report of the managers showed total revenue of \$2983.00. The total given to missions was \$262.00. The Sunday school, Women's Missionary Society, Ladies Auxiliary, and C. G. I. T. groups showed by their financial reports and other activities that they had finished up the year very successfully. Three new members were added

At the Palace Theatre

For this week and at the Palace, "Romance of the Rio Grande" is the big feature picture, with comedy in addition. Warner Baxter is the star in the main picture, which will be enjoyed by all who attend. "Bride of the Regiment" details with caste are given in display advt. in this issue. Be sure and come!

to the management committee—Wm. Lees, Ernie Houghton and Alan Brown.

The Rev. A. E. Larke took charge here on July 1, 1930, and his report of the work covering the period till the end of the year was very encouraging.

At the close of the meeting refreshments were served by the Ladies Aid.

Coleman Defeated Pincher Creek 8-1

Eight to one in favor of Coleman Canadians against Pincher Creek was the result of the much heralded Crow League fixture here last Friday evening. It was a disappointment to the fans who had been keyed up to a high pitch of expectancy following the non score draw at Pincher between these teams on Wednesday evening.

Bill Gate, player manager for the Canadians, scored five, Pattinson two, and Joyce one; the lone goal for Pincher, in the third period, was scored by Spooner.

Gate notched two goals within five minutes of the opening of the game, playing on the forward line; Joyce, defence player, scored the third in this period. Pincher made over a dozen shots on Coleman goal in the first, but Cologrosso, goalie, was in tip-top form, and stopped them in splendid style.

In the second Gate scored, followed by Pattinson, and shortly before the close of the period Gate notched the sixth goal scored.

In the third Spooner scored the lone goal for Pincher on a nice shot from right wing which Cologrosso hadn't a chance to save; Gate again scored for Coleman, and Pattinson landed the final goal, making the eighth for the home team.

Alexander, Wilson and Levasseur were the outstanding players for Pincher, and though handling the puck splendidly, did not have sufficient speed to outtake the lighter and younger players of the opposing team.

Hay, goalie for Pincher, was decidedly off his game, disappointing alike to players and fans. Pincher supporters turned out in good force to give their team a hand, but it was to no purpose.

Alexander of Pincher and Jenkins were penalized in the first; Gardner of Coleman in the second; Fraser of Coleman, and McPherson of Pincher in the third. Play throughout was clean, and Referee Walter Scott kept the players well in hand.

The game was played before the second largest crowd of the season, exceeded only by Blairmore vs. Coleman a week ago in a league fixture here.

Coleman Defeats Bellevue 3-2

Coleman Canadians won a hard fought and well deserved victory over Bellevue Bulldogs here last evening by a score of 3-2. Five minutes overtime each way was necessary to break the tie of 2-2.

Bill Gate again added to his laurels by scoring two of the three for Coleman, Gardner scoring the other. Charlesworth and Hallworth scored for Bellevue, both in the first period.

W. H. Turner of Blairmore, refereed the game.

St. Alban's Church Held Annual Meeting

Income Shows a Decrease Compared With 1930—Cent a Day Plan Proposed by Rector

The annual congregational meeting was held in the parish hall on Jan. 7, Rev. A. S. Pattinson, B. A., presiding. The rector's report on the part of the year he had been covered his activities, and referred among other things to the Diocesan Synod, grants, assessments and the church organization. An interesting letter from A. S. Morris, a former member of the vestry, was read, in which he referred to his pleasant recollections in connection with the church. Minutes of last year's annual meeting were read by H. T. Halliwell, and R. F. Barnes read the financial report for the year, which showed that despite decreased revenue, sufficient had been subscribed to meet the necessary amounts for stipend, Diocesan Assessment and general expenses, though it was necessary to carry over about \$50 of liabilities to 1931 for payment. It was pointed out that many whose names appear on the census as church members are not shouldering any part of the cost of church maintenance.

The Women's Guild report was submitted by Mrs. G. A. Brown, showing receipts of \$529.65, and expenditures of \$489.26.

The Junior W. A. report was read by Isabel Atkinson, showing a credit balance after paying all expenses of \$11.51. The Sunday school report was also read by Isabel Atkinson, showing all liabilities paid and a small credit balance.

The rector advocated the putting into effect of the "Cent a Day" plan, whereby all church members would put by a cent each day, in addition to their ordinary givings, so that frequent appeals by means of teas, whist drives and other means of raising money would be eliminated. No decision was arrived at, motions for and against being discussed.

An estimate for parish hall enlargement, prepared by L. Lindoe, was submitted by the rector, the purpose of which is to make it more suitable for concerts and other activities of the church. A committee was appointed to make further arrangements, being G. Derbyshire and members of the vestry.

Officers appointed for 1931 are H. T. Halliwell, rector's warden; A. L. Watkins, people's warden; R. F. Barnes, J. T. Griffiths, F. G. Creggan, F. G. Graham, G. Derbyshire, W. L. Borrow, vestry.

H. T. Halliwell and R. F. Barnes were appointed delegates to the Synod to be held in Calgary Feb. 4 to 8.

Mrs. A. Jones kindly volunteered to act as envelope secretary.

Following the meeting, a social hour was spent and refreshments served by the Ladies Guild.

The church officers appeal to all who are members of the Anglican church resident in Coleman, who are not now supporting the church to make a special effort in 1931 to contribute, for it is only by the combined voluntary giving of the church people that the work can be carried on.

E. D. Battrum, C.A., of Calgary, was here the latter part of the week completing the municipal audit and preparing the financial statement of the town for the past year, which will shortly be published in The Journal for the information of the ratepayers.

St. John Ambulance Assoc- iation Exams. Held Sunday

The annual examinations were held on Jan. 18 in Central school, Dr. R. F. Stewart being examiner, assisted by Chas. Thomanson and E. Royle of Blairmore, and H. Instone of Hillcrest.

The following candidates were examined:

Certificates—L. A. Caror, C. McQuarrie, W. P. Lonsbury, E. M. Price, W. Graham, H. Turner, E. Salvador, A. Wilson, O. Bomblen, A. Oliva, T. DeCocco, Steve Penny, G. Vincent.

Voucher—Elias Jones, J. Janostak, G. Raymon, O. Celli, A. Faurville, B. Bond.

Medallion—H. Hulbert, R. Davidson, M. Cornett, J. Kilgannon, J. Rushton, Jr., G. Derbyshire, A. J. Phillips.

Label—Harry Parkinson, J. Goulding, A. E. Corney, E. N. Hill, J. Cousine, N. Fleming.

C. J. Tompkins of Blairmore, who several weeks ago was seriously injured in an automobile crash, is making progress and is able to be around again, though he has not made a visit to Coleman yet.

Stabbing Affray Last Friday Night

Knife Wound Inflicted on A. Binda During Discute on Main Street

M. Andrechuk is under arrest for the stabbing of a compatriot named Albert Binda in a brawl on Friday night. A preliminary before Magistrate Gresham was heard on Saturday and the accused remanded on bail to come up again on Jan. 22. J. M. Gillis, K. C., of Blairmore, appeared for the defence, and the prosecution was by the provincial police. The occurrence took place outside of Leduc, Kleyko Co. store during the progress of the hockey game last Friday. Binda was taken to the hospital, where a long knife wound in his arm was dressed, and Andrechuk was arrested by provincial police at his home in East Coleman shortly after.

Money saved is as good as money earned, especially in the times you buy every day for the home. Look up the grocery specials of Coleman stores in this paper.

LEDIEU, KLEYKO CO.

Keep Cool.

Foreign Minister Briand, of France, was recently taken to task by one of the Nationalist leaders who charged him with lack of firmness in dealing with the existing situation, answered with some show of spirit: "I believe the best service one can render his country just now is by remaining cool."

Another state executive, Marcus Aurelius, gave practically the same counsel in the second century of this era when he said: "Do not be whirled about, but in every movement have respect to justice, and on the occasion of every impression maintain the faculty of understanding." Or, more briefly, keep cool.

The advice to keep cool, says a United States publication, is sound advice to every one of us at the beginning of 1931. True, but it is good advice at all times. The advice will be just as sound at the end of 1931 as at the beginning, and at all time intervening. The two quotations above demonstrate this, inasmuch as the advice tendered by an outstanding statesman of the second century is repeated by one of our leading world statesmen in the twentieth century. The words used may be different, but the meaning is the same.

Do not be whirled about. Keep cool. When the stream of life is flowing evenly toward its destined port or goal, following a well marked channel, with hardly a ripple on the surface, it is comparatively easy to keep cool. There is nothing to whirl us about, and in the resultant tide of prosperity we pride ourselves on our strength and boast of the stability and greatness of our country.

But it is, when, feeling thus safe from a sense of false security, whether in our individual or national life, we reach the reefs, and rocks of disaster loom up ahead, that we are inclined to be whirled about. Then is the time for cool heads, stout hearts and steady hands. It is then that our strength will be proven, and the stability and greatness of our people and our country established.

In the realm of nature, cyclones and tornadoes result from the impact of hot air currents with cooler currents, the one rising, the other descending. Conflict ensues. So in the realm of world economics, business depressions follow inevitably upon periods of abounding prosperity. Just as heated air becomes inflated, so does man in his business enterprise become puffed up. Both ultimately must be deflated, and it is in the process of deflation that trouble comes.

Then is the time to keep cool. When the sun is shining, and storm clouds are absent from the sky, and the barometer is steady, a ship's captain has a comparatively easy time, when the storm breaks and the hurricane roars, and the ship is tossed and whirled about, it is essential that the captain remain cool and not whirled about.

"My old world is just now in a 'storm centre.' It is passing through it; in time it will emerge. But it is now that we must all keep cool; it is now that it would be fatal to be whirled about. The present is not the time to abandon the old charts which have guided us so far. The past is not the time to throw the compass overboard, and mutiny against the captain. When we have finally emerged from the present difficulty we should, of course, take stock of our harrowing experience, and endeavor to devise ways and means to prevent or lessen the force of another such storm. But while the storm rages, keep cool.

Keep busy; work harder than ever before and work cheerfully, knowing that thereby the present task will be made less onerous to bear, keep the faculty of understanding in full play; take alert advantage of every opportunity. Don't be stampeded and don't be discouraged. Let every one put his shoulder to the wheel and all pull together.

To one and all, now and for every day of this year, is presented the admonition of the ancient Philistine leader: "Be strong, and quit yourselves like men."

Vast Gold Field in Japan

Mining Engineers Discover One Of Unprecedented Wealth

A gold field, which is declared to be of unprecedented extent and wealth, has been discovered in Formosa by mining engineers representing the Tokio Imperial University. Dr. Jashuro Yokohori, head of the expedition, estimates the amount of gold available to aggregate \$2,500,000. The deposits, he said, extend for approximately 150 miles and are alluvial in nature. "I actually picked up gold dust in river beds, in the mountains, on the plains, and even on the streets of small villages," Dr. Yokohori said.

World Wants More Gold

Gold is one commodity in which there appears no threat of surplus. The world is constantly crying out for more. From Australia comes word that New South Wales has gone the length of bonusing the industry by paying half the actual working costs of prospectors and offering other inducements. It is said that there are over 1,000 prospectors out in that state.

Vegetables From U.S.

Canada Imports Large Quantities Of Potatoes and Onions

During the first nine months of 1930, Canadians ate more potatoes and onions grown in the United States than the people of any other foreign country, according to a commerce department report. Despite the counterweight of 75 cents a hundred-weight instituted in May, Canada took 43 per cent of the total export crop of potatoes during that period. The Dominion took about 40 per cent of the total export onion crop. Canada paid less than a million dollars for the early potatoes and less than \$200,000 for the onions.

A pleasant medicine for children is Mother Graves' Worm Expeller, which is also excellent for driving worms from the system.

Canadian Coal

Nova Scotia, New Brunswick, British Columbia and the Yukon produce only bituminous coal; the Saskatchewan mines yield lignite only; Alberta produces bituminous, sub-bituminous, and lignite, and formerly also mined some anthracite.

Was Weak and Run Down Could Scarcely Do Housework

Mrs. Edward A. Allen, Bezonson, Alta., writes: "I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very much run down in health. I could scarcely do my housework. In fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and was delighted with my renewed strength. I have recommended them to my neighbor and I feel sure they will help her too."

Price 50c a box

Sold by all drug and general stores, or mailed direct on receipt of price by The M. Milburn Co., Ltd., Toronto, Ont.

Nations Warned Against Russia

Trading With Soviets Provides Funds To Finance Revolution

A special cable from London to the Toronto Globe says:

"The President of the Bureau of the International Entente against the Third International has issued a serious warning to the nations of the world, through the Geneva press, against Russia's five-year plan. His pronouncement says in part:

"Whoever buys goods coming from Russia helps to provide the Russian government with the funds which it needs to maintain its dictatorship and to finance revolution, in the purchasing country, as in others, takes advantage of the exploitation of the Russian people, and aggravates the shortage of food and other articles of prime necessity from which these people are suffering."

"Whoever sells to the Soviet government, directly or indirectly, receives in payment money of doubtful origin; contributes to the realization of the 'five-year plan,' a war machine of which the workers will be the first victims, directed against the property of other nations."

Overwork or Worry

Taxes the Health of Thousands Of Young Girls

In the "teen-age" years when school or office work is taxing and outdoor activities use up so much energy, many girls undermine their health and spoil their happiness for years to come.

At such a time Dr. Williams' Pink Pills will be the most valuable. They purify and enrich the blood; build up the nerve cells and correct run-down conditions. Concerning them Miss Margaret Torrey, Indian Road, Toronto, Ont., says: "When I was attending high school I suffered a complete breakdown. My heart would palpitate at the least exertion; I could not sleep and nothing I ate agreed with me. I began taking Dr. Williams' Pink Pills and before long I gained in weight and every distressing symptom left me." Dr. Williams' Pink Pills are sold by medicine dealers or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Noise Has Been "Harnessed"

Acoustic Paint Assures Quietness In Toronto's New Bank Building

Once again science has mastered an ostensible physical impossibility. Since men commenced to erect their first buildings they have been confronted with the seemingly unsolved problem of control of acoustics. Prof. G. R. Anderson, of the University of Toronto department of engineering physics, has proven acoustics can be controlled and that bewildering noises and echoes can be eliminated from our buildings.

On the sixth floor of the new Bank of Commerce building, at King and Jordan Streets, Prof. Anderson demonstrated how special construction treatment can prevent any sort of sounds produced becoming chaotic, clamorous noises.

The great bank building will be the quietest office structure in Toronto. Rooms that have been structurally treated will be 30 per cent quieter than the others, and it is predicted the efficiency of staffs will be enhanced 15 per cent.

Eradication of disagreeable noises is accomplished largely by the evolution of a new type of acoustic paint.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Agriculture Needs Help

Ways and means have been devised for helping all the industries except agriculture. Thought should be directed at once to a policy that will bolster up farming. If agriculture can be made even tolerably prosperous all other industries will derive more benefit from the reflected prosperity than they could ever hope to enjoy from a tariff as high as the peace tower on Parliament Hill. Farmers' Advocate.

What Price Glory

Judging from an incident which occurred recently at the Balfour Technical school, Regina, that city might still be in wastes of snow and ice, for all one gentleman overseas knows about it. The mailman delivered a science catalogue to the technical school mailed from London, England, advertising scientific equipment. It was addressed simply: "Science Master, High School, Regina, North West Territories." What price glory, Saskatchewan?

W. N. U. 1873

Doctor Lives On Raw Food

Advocates Simple Diet In Order To Keep In Good Health

Hard times and unemployment distress could be greatly lessened, according to Dr. Julian P. Thomas, Winnipeg food specialist, because one bushel of wheat and one bushel of oats, together with a little fresh vegetation, would keep a man well nourished for at least a year.

In support of this startling assertion, Dr. Thomas cites an experiment performed by himself some forty years ago, when he lived on nothing but raw wheat and water for a period of ninety days. At that time the wheat cost \$1 per bushel. When he started the experiment, he had such a weak stomach that he could not eat sufficient ordinary food to keep going. On the raw foods he became so strong and healthy that he was able to turn his excessive energy into money.

Upon investigating the subject, he finds that some people in all of the world have lived as he is now living, some of them attaining such old age that modern folks do not believe the accounts, even when they occur in the Bible. The fact is, Dr. Thomas was first induced to pay attention to his diet through reading the Book of Daniel. His first experiments were started years ago, and many people then laughed at his ideas. But all of these people are now dead, and he is still going strong, with the firm belief that he will live for one or two hundred years, and that each day of his life will be happy and vigorous.

Ashma Doesn't Wear Off Alone

Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

An Accurate Clock

Designed For Timing Football Matches At Highbury, England

A novel clock has been installed on the football grounds at Highbury, England. It is a forty-two minute timepiece, and at half-time and time it sounds an electrically worked hooter. From one to forty-five minutes are marked on the face in black. From forty-six to ninety they are in red. If a player is injured during the course of a match, the operator can stop the clock at once, for it is worked by ordinary clockwork mechanism. Thus, this clock can be adjusted so as to measure the exact duration of actual play. This mammoth timepiece weighs one and a quarter tons without its frame and is no less than eight feet in diameter. It has been designed for the sole purpose of making the timing of football matches as accurate as possible.

Natural Gas

The consumption of natural gas in Canada during 1929 for domestic purposes was calculated to be sufficient to displace 640,000 tons of coal.

Exports from the United States to the Orient are again increasing.

Five Boys—

Best Evidence.

Mrs. Corcoran, of Leigh, writes:—"I suffered with biliousness accompanied by sick headaches for days at a time, and every medicine I tried failed to bring relief. A friend gave me some of your wonderful Carter's Little Liver Pills and the first dose gave me great relief. For three years I have taken them every night as a regulator and I find they prevent these bilious and sick headache attacks. I have five little boys and I give them three or four every week. I have great faith in them." Take Carter's Little Liver Pills. All druggists 25c and 75c red pkg.

New Laws In England

Varied Collection Of New Legal Enactments Are In Force

Whatever New Year resolutions the English citizen may make, he will find himself facing a varied collection of new legal enactments.

The standard rate of income tax goes up another 2½ per cent on the more substantial incomes, though there is a reduction of the tax on incomes of the lowest categories.

The motorists encounter a sheaf of new requirements under the Road Traffic act, most important from a personal viewpoint being the compulsory insurance against third party risks. The speed limit is abolished for private cars and motorcycles. Hospitals will be entitled to charge up to \$125 for expenses incurred in treating accident victims.

Hardressers' and barbers' shops will close compulsorily on Sundays. Jewish merchants may operate on Sundays if they close on Saturdays. The Irish Free State incidentally is promoting a bill to make bartering a closed profession, to be allowed only by legally recognized operators. In the Irish rural districts, it is understood, the frugal housewife frequently performs a rough and ready shingling upon her offspring of both sexes by slapping a pudding basin on their heads and shoving around the edges. Perhaps such offenders will be classed as outlaws.

New English legislation provides for different treatment of mental patients of varying degree. And a melancholy reflection upon the state of the trade is the provision by which the government continues to pay health insurance contributions for some 100,000 persons out of work for two and a half years or more.

BREAKS UP GAS IN THE STOMACH

Don't suffer from dangerous gas pressing around your heart, from sourness, acidity, bloating or pain of indigestion. Stop worrying. Whenever you need quick stomach relief, take a little Bismarck-Brewer's Little Bismarck. It breaks up gas, neutralizes acids and keeps the stomach and stomach and indigestion perfect. At all food drug stores.

Furs a Necessity

Market For Furs Has Not Suffered During Hard Times

The success of any business lies in the market demand. It might have been expected that under existing depression fur farming would suffer heavily. For some reason, however, this has not been the case for good furs, even at the late winter sales, brought fair prices. From this it would appear that furs are more or less a necessity, particularly in the northern countries.—Animal Report, Federal Department of Agriculture.

Not Improved With Age

In his early youth Mr. Mickleton had been a pretty child. His friends did not believe this was possible, and even he had forgotten all about it until one day he unearthed a painting of himself as a small boy from among the lumber. This he handed to his wife, "There, Sarah," said Mr. Mickleton, proudly exhibiting the picture to the servant. "That is a portrait of your master, painted when he was a child." Sarah gazed open-mouthed at the production. "Oh, mum!" she said, after some moments, "that a pity it is I have to grow up, ain't it?"

Remove all callouses and enlargements from your stock with Douglas' Egyptian Liniment, a wonderful remedy.

"Some of the old songs will never die," says a musician. The fact that they are murdered with great frequency seems to make no difference.

COUGHS/COLDS

Disagreeable coughs and colds are quickly destroyed by the use of this reliable medicine. It is the only one that you can trust your horses with. The old reliable.

SPOHN'S COMPOUND

Prized by horse owners everywhere, Spohn's Compound has won the gold medal at the same show goes to Nick Chjelle, of Ranier, Alta., who has been a winner in this field for some years. Cochran, too, has been taking championships at Chicago for many years, the donors of the prize say, but this is the first time he has taken first place as a grower of timothy seed.

Announcement has also been made by R. English, of the Canadian National Agricultural Department, that the special prize for top place in alfalfa seed at the same show goes to Nick Chjelle, of Ranier, Alta., who has been a winner in this field for some years. Cochran, too, has been taking championships at Chicago for many years, the donors of the prize say, but this is the first time he has taken first place as a grower of timothy seed.

BRITISH FILM GUILD IS FORMED IN CANADA

Toronto, Ont.—Announcement was made recently of the organization of the British Film Guild in Canada, an independent organization of Canadian theatregoers, interested in seeing British and Canadian pictures in Canadian theatres. The Guild has an initial membership of 150 people and is now conducting a mail poll for the election of officers.

Believing the vagueness surrounding specific activities of British studios, the personalities of stars and directors, what British films are currently available for Canadian showings and how they appeal to Canadian tastes, to be one of the major handicaps to British film progress in Canada, the Guild hopes to act as a clearing house for information, the announcement said.

Its appointees will preview incoming British films and send frank comments to the membership at large.

Members as a whole will report on British films they see and a summarized symposium of Canadian opinion will be sent to the British producer for his information as an indication of Canadians' film entertainment. Statistics on British films will be compiled with a notation of where they were shown, audience reactions and degree of box office success in each case. Co-operation of British producers in such things as arranging previews has, it stated, been obtained.

Decision On Freight Rates Re-Affirmed

Railway Board Explains Method Of Computing Reduction In Maritime

Ottawa, Ont.—A re-affirmation of their former decision as to the correct method of computing how the 20 per cent. cut in maritime freight rates should be arrived at is contained in a judgment of the board of railway commissioners, delivered here.

The judgment decrees that on west-bound freight traffic the point of whose origin lies within the "select area," the reduction shall be calculated on the ratio which the distance between that point of origin and the western limit of the "select area," Diamond Junction, bears to the whole distance from the point of origin to the ultimate destination. That is to say, a commodity transported, for example, from Moncton, N.B. to Calgary, Alta., enjoys the 20 per cent. freight reduction not on the entire Moncton-Calgary rate but on that proportion of the Moncton-Calgary rate which that commodity bears on the distance between Moncton and Diamond Junction, or Lewis, Que.

Talks To Buenos Aires

Prince Of Wales Telephones Across 6,500 Miles From London To Argentina

London, England.—The Prince of Wales picked up his telephone in York House and sent his voice across 6,500 miles to Buenos Aires, talking for seven minutes with Sir Herbert Gibson, chairman of the British trade exhibition, which the Prince will open in the Argentine capital March 7.

So clear was the transmission that friends sitting near the Prince could hear what Sir Herbert said. First he read a message of welcome to the heir and then there was an informal chat.

To Improve Potato Crop

Winnipeg, Man.—Potato growers of Manitoba were urged to use certified seed and to strive to produce No. 1 grade crops, by John Tucker, chief potato inspector of the Dominion, who addressed the board of trade's agricultural bureau recently. Manitoba's production in the last 10 years, he said, averaged 135 bushels per acre, which he considered low.

Will Celebrate Diamond Jubilee Victoria, B.C.—British Columbia will celebrate her diamond jubilee with all the pomp and circumstance befitting the occasion, at the capital of the province on July 20 this year. It was on July 20, 90 years ago, the Crown Colony of British Columbia was formally included in Confederation.

U.S. Motor Vehicle Deaths Chicago.—There was 32,500 motor vehicle deaths in the United States in 1920, the National Safety Council estimated recently. This figure represented an increase of approximately 1,300 deaths over the 1929 period.

Courage Needed Says Federal Woman Member

Miss MacPhail Thinks Representatives In House Should Follow Their Conscience

Brantford, Ont.—"You can take your conscience into the House of Commons, but to keep it there—oh, boy!" commented Agnes MacPhail, M.P., in an address here, after reviewing the attitude of the members toward a woman colleague.

Miss MacPhail declared that there was great need today in parliament for members to follow their own consciences, and courage to stand for what was right, irrespective of party or the big interests. The House, she said, "badly needed Mr. Hon. Arthur Meighen and Hon. Charles Dunning, two men of courage."

She declared that prosperity could not be secured by injecting life into one or another industry as with a hypodermic needle, but was dependent on the prosperity of all.

British Shipyards Busy

Built Over Third Of World Construction During Last Quarter-Year

London, England.—Well over one-third of the total shipping under construction in the world in the quarter-year ending December 31, was in British shipyards, according to Lloyd's quarterly report. The exact percentage was 39.1 out of a total of 2,326,086 tons. The only figures not taken into account are the comparatively small tonnages building in Russia, which does not supply statistics.

The number of ships being built in Great Britain in the period was 181 with a total tonnage of 908,802. This was a decrease of 207,644 tons from the previous quarter, and 651,329 tons less than in the same period of 1929.

Of the foreign tonnage under construction, 232,030 was recorded in the United States, 181,215 in Germany, 179,677 in Italy, 174,215 in France, and 160,978 in Holland.

Opening Of Manitoba's Legislature Announced

January 27 Date Decided On At Cabinet Meeting

Winnipeg, Man.—Manitoba's legislature will open Tuesday, January 27, Premier John Bracken has announced. Decision to commence the session on this date was reached at a cabinet meeting.

Unemployment relief measures loom as an important subject for the session. Re-adjustment of provincial taxation to enable the government to reduce the municipal levy by one-half is another important piece of business to be discussed by the members of the legislature.

Expect Improvement In Fishing Industry

Comprehensive Survey Being Carried Out By Fisheries Department

Halifax, N.S.—A marked improvement and more stable conditions in the Canadian fishing industry are expected in the reasonably near future by Hon. E. N. Rhodes, minister of fisheries.

Speaking of the survey of the industry being carried out by the department, Hon. Mr. Rhodes said it was of such a comprehensive character that it could be completed before next August. A study of market conditions at different seasons of the year was one of the factors involved.

Question Of Gold Payment

Paris, France.—The answer of the French Government to the last British note relating to the payment in gold of the French war loan, which will be remitted soon, will constitute a courteous refusal to submit the differences to the exceptional procedure of arbitration, when normally competent jurisdiction has not been invoked. It was reported recently.

Racer Sails For States

Southampton, England.—Capt. Malcolm Campbell, British automobile racer, sailed on the "Homeric" for New York with his racing car, the Bluebird. If arrangements for his speed trials at Daytona Beach, Fla., at present somewhat confused, are not settled, he said he is ready to go on to New Zealand.

Is Canadian Firm

Toronto, Ont.—Durrant Motors of Canada, Limited, is now owned, controlled and operated by Canadians, it was announced by Roy D. Kerby, president and general manager of the company. The announcement said the company is now probably the only automobile company in Canada so controlled and managed.

Advocates Fruit Growing

Manitoba Farmer Says More Money In Fruit Than In Grain

Winnipeg, Man.—A pioneer fruit grower of the prairies told delegates to the annual convention of the Manitoba Horticultural Association recently, that fruit growing should be regarded as a profitable field by farmers.

His four acres of crab apples, plum and hybrid cherry trees netted him a greater profit last year, William Shepherd, Rathwell, Man., said, than 300 acres of grain would have. Mr. Shepherd considered fruit farming had a bright future in Manitoba.

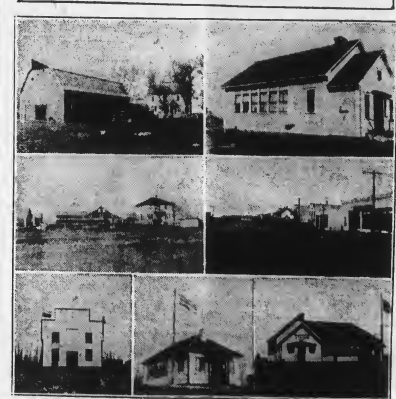

HUGE TELEGRAPH MERGER MAY BE ARRANGED

Montreal.—Amalgamation in a \$50,000,000 corporation of the respective commercial telegraph systems of the Canadian Pacific Railway and the Canadian National Railway is being considered by the two parties. The Canadian Press understands the proposal has also been put before the Dominion Government at Ottawa. This is the much larger idea behind the statement in Ottawa of Sir Basil Blackett, chairman of Imperial and International Communications, Limited, "that the Canadian Pacific and the Canadian National shall become partners with the I.I.C. in forming a Canadian overseas communication company, which shall include the Canadian Marconi Company."

The suggested amalgamation presents obvious advantages and no less obvious disadvantages. Economically, there would be the saving in the present duplication from coast to coast in equipment and personnel, but even more important would be the advantages of a strong, all-Canadian corporation, able to meet competition and hold its own against all comers.

For neither of the two Canadian commercial telegraph companies is really independent, because each is necessarily allied and more or less dependent upon one or other of the rival United States communication groups, the Western Union and the Postal, which again results in the bulk of overseas going through foreign rather than British channels. This strong corporation would operate at a much lower cost and therefore at lower rates to the permanent advantage of the Canadian public. At the present time, eight commercial telegraph lines are strung across the Canadian continent, and a message, to pass from one to another and beyond, means an increasingly higher rate, constituting a heavy toll on the economic life of the country. It is probable that such an amalgamation would permit of the cutting down of these eight zones to only three: Eastern zone, from Cape Breton to the Head of the Lakes; Central zone, Head of the Lakes to Regina; Western zone, Regina to Victoria. In other words, a commercial telegraph traffic would have to bump over only two great summits as from coast to coast, instead of over seven, while the great area of Eastern Canada would enjoy a flat rate.

Winning Manitoba Communities in C.N.R. Progress Contests

Completion of the first year's contests in the Canadian National Railway community progress competitions for European settlements in Manitoba placed Rossburn, Ukrainian, first; Steinbach, Mennonite, second; Rhineland, Mennonite, third; Ethelbert, Ukrainian, fourth; Stuartburn, Ukrainian, fifth. Above pictures show: (1) Residence of Jacob Schollenberg, Rhineland; (2) Blumenort school, Steinbach; (3) A. R. Penner's farm house, Steinbach; (4) Main street of Ethelbert; (5) Community Hall, Rossburn; (6) Byrd school, Rossburn; and (7) King George school, Rossburn.

PHYSICAL EDUCATION EXPERT

Captain Robert Jarman, now of Manitoba, physical education expert, who has just finished a series of demonstrations of his teaching methods in Toronto. He may be brought to Toronto when his Manitoba contract expires.

Gift From Lord Willingdon

Governor-General Presents Car To Children's Aid Society, Ottawa Ottawa, Ont.—Ottawa's needy children are to have a handsome automobile of their own—the gift of the departing Governor-General and Viscountess Willingdon.

The generous presentation was made by Their Excellencies to Mrs. C. H. Thoburn, prominently identified with several organizations having to do with child welfare. In tendering the auto, of an expensive make and brought to the Dominion when Lord and Lady Willingdon first took up residence here, Their Excellencies voiced a desire that it be devoted to the use of the children for their various outings.

The car will be used by Ottawa's young folk, under direction of the Children's Aid Society.

Buys Seat On Grain Exchange

Arthur Cutten, Chicago Operator, Pays Good Price For Entry To Winnipeg Pitt

Winnipeg, Man.—With wheat threatened as king in the Chicago grain pit, big operators there are transferring their activities to the Winnipeg Grain Exchange.

The latest recruit to the local pit is Arthur Cutten, Canadian-born and long calling king of the traders, who Tuesday, January 13, bought a seat on the Winnipeg Grain Exchange. While his interests traded here before, this is the first time Mr. Cutten has been a qualified member of the Exchange.

Cutten is understood to have paid \$12,600 for his membership.

Ferguson High Commissioner

Ottawa, Ont.—Canada's new High Commissioner in Great Britain—Hon. G. Howard Ferguson—became a member of the Canadian Privy Council, January 14. Accompanied by Premier R. B. Bennett, the High Commissioner proceeded to Government House and in the presence of His Excellency took the oath as a privy councillor.

Wheat Exports Increased

Canada Exports More Wheat During Past Nine Months Than During Same Period Previous Year

Ottawa, Ont.—At the three-quarter mark in the present fiscal year Canada had exported considerably more wheat than during the corresponding period last year, but the amount realized from the business was appreciably lower. Figures issued through the department of national revenue show that the Dominion exported 181,442,015 bushels of wheat during the nine months just closed, for which the sum of \$157,735,170 was realized. In the corresponding nine months of 1929-30 the total quantity exported was 153,607,017 bushels, valued at \$187,722,619.

Both exports of domestic commodities and imports into Canada suffered a big decline in the nine months just ended. Total imports during the nine months just ended were \$729,991,815 as compared with \$869,663,518 in the corresponding period of 1929-30. Total exports of Canadian produce during the past nine months were to the value of \$654,113,805 as against domestic exports during the nine-month period of last year, which totalled \$800,465,841.

Mounties Will Visit Argentina

Four Picked Members Of Force To Be In Charge Of Canadian Exhibit

Winnipeg, Man.—Four picked members of the Royal Canadian Mounted Police will sail for Buenos Aires on the Canadian National steamship "Princess Patricia" on February 21, according to advice received here. They will be in charge of the Canadian exhibit at the British Empire Trade Fair and will themselves be a splendid advertisement for the Dominion.

The large Canadian delegation will also sail for South America on the "Prince Robert." The men selected are not from Saskatchewan.

BID WILLINGDONS FAREWELL ON LEAVING CANADA

Ottawa, Ont.—Ottawa said "good-bye and good luck" to Their Excellencies Viscount and Viscountess Willingdon. In the brightness of a sparkling sharp Canada winter day, prominent representatives of the political, diplomatic, business and social worlds of the Dominion gathered to bid farewell to the Governor-General and his wife, who, for more than four years, have lived among the Canadian people.

Bright uniforms of the soldiers, who constituted travelling escort and guard of honor for Their Excellencies, flags and bunting, and a large wreath of beautiful roses with its message of "Good Luck" added colour to the scene. Headed by Rt. Hon. R. B. Bennett, prime minister, members of the Dominion cabinet were present to shake the hands of Viscount and Viscountess Willingdon for the last time. Rt. Hon. W. L. Mackenzie King, Liberal leader; Hon. G. Howard Ferguson, newly-appointed high commissioner for Canada in Great Britain; Hon. Vincent Massey, former Canadian minister to Washington, representative of foreign governments in Ottawa, and others, prominent in various walks of life in the Dominion were among the crowd which gathered at the station.

After the last farewells were said, as the train moved slowly away from the carpeted stairway up which Their Excellencies had walked to the rear platform of their private train, the band of the governor-general's foot guards struck up the National Anthem, and in a minute changed to the familiar strains of "Auld Lang Syne." The crowd broke into cheers. Their Excellencies waved farewell, and the train pulled away.

Viscount and Lady Willingdon will spend a couple of months in England before leaving to take up their new duties in India. From Government House, which Their Excellencies left shortly before noon to drive in the state car to the Central Station, a travelling escort of the Princess Louise Dragoon Guards accompanied them. Boy Scouts lined the drive through which the vice-regal party drove in the Government House grounds. His Excellency was Chief Scout for Canada.

Accompanying Their Excellencies were E. C. Merville, private secretary, and Mrs. Merville, Col. Humphrey Snow, controller of the household, and members of the staff. Mr. and Mrs. Merville will go to India with Lord and Lady Willingdon.

EARTHQUAKE CAUSES HAVOC IN MEXICAN CITY

Mexico City.—Soldiers were turning over the wreckage of the thriving city of Oaxaca, carrying out the bodies of men and women who perished in the earthquake which rocked Southern Mexico.

At least 12 persons perished and many more were injured. Telegraphic communication was impossible and radio messages irregular. The city itself, in ruins and panic-stricken people slept in the open, despite intense cold, because they were afraid to go back to so much homes as were left standing.

The only clear picture of the disaster came out of the ruined city in a message to President Ortiz Rubio from General Everardo Perez, military commander of the state of Oaxaca.

It was he who said that at least 25 persons had been killed or injured. Another message to the department of communications said that 12 had been killed, but this could not be verified immediately.

"It is impossible to describe the confusion here," the general's message said. "The loss is incalculable. At least 25 persons have been killed or injured and we are still discovering bodies of the dead."

The general's home was destroyed and he was living in his automobile, he said. The military barracks were in ruins and a colonel of cavalry was one of those killed. The police were helping the soldiers to search the ruins for additional victims.

Epitaphs of the quake, which struck Oaxaca was placed a few miles northeast of the city, Mexico City itself was shaken for four minutes, and one person was killed and 25 injured. There also was considerable property damage.

Revenues Decrease

Ordinary Revenues For Canada Decreased By \$66,000,000 In Nine Months Period

Ottawa, Ont.—Ordinary revenues of Canada decreased by \$66,000,000 approximately for the nine months ended December 31 last, as compared with the corresponding period in 1929. During the past nine months' period, according to the official financial statement issued recently, ordinary revenues totalled \$285,221,051, as against \$351,287,322.

Ordinary expenditures increased by \$15,000,000 in the period under review. For the nine months ended December 31 last, ordinary expenditures amounted to \$298,720,205 as contrasted with \$283,141,767 for the period of 1929.

The statement represents only the receipts and payments which have passed through the books of the department of finance up to the last day of the month.

The net debt of Canada, according to the statement, shows an increase. On December 31 last, the net debt was \$2,193,748,531, as compared with \$2,159,214,730 on December 31, 1929.

New Commander Appointed

Lieut. Hart Will Take Canadian S.S. Vancouver On Water Cruise

Ottawa, Ont.—Lieut. Commander Frederick G. Hart, R.C.N., has been appointed to the command of H.M.C.S. Vancouver. His appointment took effect on January 20 and he will take the "Vancouver" on its winter cruise to United States and other foreign ports, leaving Esquimalt, B.C., on January 26.

Lieut. Commander Hart joined the Royal Canadian Navy during the war as a cadet at Halifax and was promoted to lieutenant commander in 1928. He qualified for command of destroyers while serving in the Royal Navy in 1929.

To End Slavery In Liberia

Washington, D.C.—The United States would be willing to associate itself with the League of Nations in setting up an international commission to end slavery in Liberia, the United States learned recently from a high official.

Feels Germany Breaks Promise

Paris, France.—A conference of ambassadors here is believed to have discussed the question of German disarmament with the impression prevailing that Germany has allegedly failed to fulfill all disarmament promises under the Versailles treaty.

Homeless Entries Increase

Edmonton, Alberta.—According to Provincial Government figures homeless entries and soldiers grants for the month of November amounted to 788 as against 553 for the same period last year.

NOTES AND COMMENTS

Annual meetings of churches provide an opportunity of checking over activities, the same as stocktaking of a business. A lot of information may be gained. Some give generously in proportion to their incomes. Some give because it is good business, they consider, to support the church. Some give till it hurts. And a lot do not give anything at all, not even the widow's mite. Yet they call on the church in emergency, and it is ever ready to come to their aid.

When feed is scarce around the barnyard, the hens have to work all the harder to find the scattered grains. So it is with business. In times such as we now experience, we all must work more persistently than in the times when business just naturally rolls in.

Governments are called on to legislate to alleviate distress. Many claim that the welfare of the people must be their first consideration. Granting this, it does not mean that the individual should relax his efforts to solve a difficult situation. Many are too ready to lean on the government instead of trying to extricate themselves from difficulties, forgetting that the government is really ourselves.

Life's successes are not made by leaning on others. They are developed by hard work and clear thinking. Even if the world does owe us a living, as so many claim, we also owe something to the world. You get nothing from a garden if you do not cultivate it.

The Wheat Pool has been accused by the Financial Post of causing huge losses to Canada and of encouraging grain speculators on the road to their own ruin.

As a comeback R. D. Purdy, manager of the Alberta Wheat Pool, states "The Financial Post has been nothing more nor less than a 'Come-On' for stock brokers and financial interests who have caused the people of Canada more actual money losses than anything that occurred since the war."

It quotes from The Post in 1928, which then recommended investors to such brokerage firms as Solloway-Mills, D. S. Patterson and A. E. Moysey, some of whom have served jail terms for defrauding the public. Investments which The Post advised for a long hold have decreased from \$85 a share to \$10, and working people who may have invested savings on the advice of The Post are now sadder and wiser. Again illustrating that it is not always safe to let others do all the thinking and advising when it comes to investing hard-earned savings. Life insurance and government bonds may return a little lower return in interest, but one will not lie awake wondering what the morrow will bring forth.

A red-haired young widow and a pilot are the latest victims to be swallowed up by the sea in an attempted Trans-Atlantic hop. And what good would have come of it, had they succeeded? Just notoriety for themselves. It has been proved that the ocean can be crossed, consequently it cannot be said that the attempt was in the interests of trans-oceanic navigation. Front-page publicity followed for a day or two, then the principals disappeared from the limelight as quickly as they flashed across the screen of the day's news. Fearless they may have been, but is it the type of bravery that excites general admiration?

There is business to be obtained in fair amount by every store in Coleman, if it is honestly and persistently striven for, and customers are assured of values corresponding with other places. Aggressive effort will capture more business than some stores are now getting.

Twice a month from 600 to 650 men are paid in cash. In the aggregate this amount may amount (even in times such as we now experience) to about three quarter million dollars a year, or from \$20,000 to \$25,000 a pay day. Split up individually among the men, it may afford barely a living wage, but then groceries and clothing must be purchased, and that cash is going to be spent somewhere. It is the local merchants' particular business to make the inducement sufficiently strong to have the greater part of that money spent in Coleman if he is to survive in business.

Aggressiveness, hard work, good personality, and attractive stores will always bring business, in good times or poor times. There must be a combination of these attributes to build and attract business.

Don't go out to meet trouble. You can live only one day at a time. Make the very best of each day, act fairly by everybody and it will save worrying about days to come.

Advice given gratis is usually valued at what it costs—which is nothing.

Chas. Eliot Club Literary
Club Luncheon Meeting

The Chas. Eliot Club is the name of the latest organization formed in Coleman. Rev. Albert E. Larke is the president, and Miss Bessie L. Dunlop secretary. Luncheon meetings are held monthly in the Grand Union hotel, and a paper or an address given in turn each month by members.

At this month's meeting Miss Martha Houston gave an address on "Modern Poets," going into considerable detail on the poems and career of John Macfie. Arthur Kirkby read a paper entitled "Comparative Contemporaries," the characters of which address being Byron and La Salle.

At the luncheon G. G. Coote, M.P., who was on a brief visit to town, gave a short talk, in which he advised the members to make a study of Economics, which would prove highly interesting and very useful in view of present conditions throughout the world.

ST. ALBAN'S CHURCH

Next Sunday is the 3rd after Epiphany. The services will be: 11 a.m. Morning Prayer and Sermon.

12.30 p.m. Sunday School.
3 p.m. Adult Bible Class.
Commencing Sunday, Feb. 1st, the Sunday School will assemble at 2 p.m. instead of 12.30 as at present.

The choir will hold a social in the Parish hall on Friday, Jan. 30, at 7.30 p.m. All members of the congregation are invited.

Crows Nest Pass Hockey
League Standing

Secretary McDougall of the Crows Nest Pass League issued the following league standing:

	W	L	D	Pts
Coleman	4	1	1	9
Blairmore	3	1	0	6
Pincher	1	4	1	3
Bellevue	1	4	0	2

Blairmore has to play against Pincher and Bellevue and Pincher to complete the league schedule.

Play-off dates between Coleman and Blairmore to be announced.

Local News

Mrs. W. E. Walker of Taber, is visiting for a few days with Rev. and Mrs. Partington at the Rectory.

18 tables were in play at the Rebekah whist drive on Saturday. The prize winners were Mrs. Barula, Mrs. Emmerson, Adam Wilson and R. Cousins. Quite a number attended the dance held after the whist games.

Remember the dance on Wednesday next sponsored by the nurses of Coleman hospital. Proceeds are to be used to purchase a radio set for the hospital. The nurses are to be commended for their enterprise and no doubt will meet with a generous response.

A surprise birthday party was held at Mr. and Mrs. Ford's home on Friday evening in honor of Miss Evelyn Ford. A number of members of the Rebekah Lodge called and spent the evening playing whist. Mrs. Bowling and Mrs. Fred Cox won the prizes. Mrs. Nielson was also presented with a cup and saucer as well as Miss Ford, to commemorate their birthdays.

W. D. Spence, of the Assessment Commission, Edmonton, was here on Friday morning to hear appeals against assessment in Improvement District No. 71. This includes Graftonville flats and East Coleman, also part of Carleton Place. Appearing in person were W. Antrobus, Mr. Liliya and Mrs. Chalmers. Written appeals were made by J. A. Nowell, Albert Dryden, Robt. Baker, Camille Caset and J. E. Charette, making eight appeals in all.

For \$200 ...
Can you equal this?

For \$200 invested yearly, a young man can capitalize his youthful vigour and effectively prepare for life's contingencies through the Sun Life Assurance Company of Canada.

3 GREAT
BENEFITS

1. NOW—\$10,000 Immediate Protection
2. IN A FEW YEARS—\$10,000 in Paid-up Assurance, earning Dividends.
3. AT MIDDLE LIFE—\$10,000 in Cash.

He can secure for his dependants immediate protection of \$10,000, increased yearly thereafter by accumulating dividends. This \$10,000 estate is created instantly by the first payment. The assured thereby obtains maximum protection for his family at minimum cost at a time when protection is the greatest need.

In a few years he may stop paying, take a paid-up policy for \$10,000, and thereafter receive regular dividends until his death when the full capital sum of \$10,000 is still payable to his dependants.

By middle life (if he has not selected the last-mentioned plan) his policy will mature as an endowment for \$10,000, returning to him a sum far in excess of the total premiums paid. This investment settlement comes at a time when personal and family maintenance have become more important than protection.

The above policy, like all Sun Life policies, can on maturity be paid in monthly instalments over a period of years, instead of in a lump sum.

Extension Of Market For Honey In Baking Industry Investigated By National Research Council

Extension of the market for honey in the baking industry would seem to lie in the direction of increasing its use in sweet goods such as sugar cookies, rather than in the manufacture of bread, as has been a common belief, states the report of an investigation in the laboratories of the University of Manitoba, issued by the National Research Council's Associate committee on grain research.

It has been widely held that the substitution of honey for cane sugar in the manufacture of bread would result in a more rapid rate of fermentation and in an improvement in the flavor and keeping quality of the bread. The study now reported which was made with financial assistance from the National Research Council and the Canadian Wheat Pool by Professor W. F. Geddes and C. A. Winkler, 1930 Wheat Pool research fellow for Manitoba, disproves this suggestion.

The alternative put forward by the investigators is that honey be used where its flavor, higher sweetening power and ability to absorb moisture are particularly advantageous.

It was found that the substitution of honey for commercial cane sugar in various straight-dough bread making formulae made no significant difference in loaf volume, flavor or other bread characteristics, indicating that honey possesses in these circumstances no superiority, but is of equal value when compared on the basis of equivalent sugar content.

Figured On Yearly Basis

Worker's Income Depends On Number Of Working Days

"This city is practically bankrupt." This is a sentence in a letter received from Detroit. It probably means only that Detroit is suffering keenly from the business depression, and that people there are dependent.

It is a little singular that with Mr. Ford paying \$7 a day to his employees—or so the world understands—and so setting a fine example to all employers, that there should not be good times in Detroit. Perhaps Mr. Ford only pays this wage to his men when they are working, and it may be that they don't work steadily.

Seven dollars a day doesn't mean much to a man if he only gets work occasionally. That would mean \$2, 135 a year of 305 working days. But if a man's yearly income only averages \$1,200 a year that would be only \$4 a day.

The problem for wage earners is to get a living wage by the year. It would seem that a bricklayer earning \$10 a day would really only be in receipt of \$5 a day if he only worked six months of the year.

Workingmen have to live whether their jobs hold out or not. All their calculations should be on a yearly basis.

In Times Like These

"What the country needs is men of action, in politics as well as in business," declared Hon. Alfred Durnan, K.C., Minister of Marine, in an address before the Canadian Club at Toronto. "They alone can put a stop to the trade depression which this country and all other countries have suffered in the last couple of years."

New Road Composition

A new composition for highways recently discovered in Cape Town, South Africa, is said to cut the cost of road making one-half as compared with ordinary material, double the life of the road and halve the length of time of laying.

Do you speak French?
"Yes, but I don't like it, as I have to think before I speak."—Sondagne-Strix, Stockholm.

W. N. U. 1873

Live Stock Improvement

Dr. Riddick, Dominion Dairy Commissioner, Says Matter Needs Attention

Periodical testing of herds and direct efforts at improvement of stock are the most important questions before the dairy farmers of Canada, said Dr. J. A. Riddick, Dominion Dairy Commissioner, who addressed the annual convention of the Dairy-men's Association of Eastern Ontario.

Farmers were feeling the pinch of low prices, but he said, the average farmer "is losing very nearly if not quite as much every year by his failure to give attention to this matter as he is through the drop in values at the present time."

"The average annual yield of milk per cow in Canada is now thought to be about 4,500 pounds or the equivalent of just about 400 pounds of cheese. If this yield were increased by 30 per cent, which is easily possible, it would be equal to an increase of two and one-half cents a pound on the original 400 pounds of cheese at 15 cents a pound after allowing for the cost of manufacture," Dr. Riddick said.

From reports already received, the commissioner estimated butter production in 1930 was probably 10,000,000 pounds higher than in 1929.

IT'S SWAGGER

All Tingley models are created and sketched in Paris and the patterns are made in New York.

Every woman knows she can't have too many frocks of sports character in her daytime wardrobe.

Today's mode is especially suitable for the college miss and the business woman.

It is in rich dark green tweed mixture with white silk pique trim.

The cross-over jabot collar is accented by a brown button. The Cosack cuffs are jaunty.

The seaming at the front of the dress, conceals hip breadth. —The skirt favors slight flared fullness.

There are any number of lovely woollen fabrics that will make up charmingly in this mode, as wool jersey, crepe marocain and crepe plain and patterned woollens.

Canton crepe and crepe silk in travel prints are also smart.

This pattern may be obtained in sizes 16 to 20 and 36 to 42. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or cash) to Fashion Bureau. Write clearly and plainly your name and full address, the number of the pattern and the size you want.

Saskatchewan Seed Fair

First Prize For Marquis Wheat Awarded To O. Harrison Of Conquest

Charles O. Harrison of Conquest was awarded first prize for Marquis wheat at the Saskatchewan provincial seed fair held at Saskatoon. Mr. Harrison's sample was outstanding and won easily.

George Canfield, of Wild Rose, near Brooks, who was champion in 1921 and 1922, won first place in the open class for other varieties of wheat. He exhibited a sample of Reward wheat weighing 68 pounds to the bushel.

In classes of wheat limited to grain from fields entered in standing grain competitions James Carnegie, of Bellevue, won first prize.

In the corresponding classes for new exhibitors, A. Robbins, Laura, was first in Marquis, and G. Mooney, Imperial, in the class for other varieties. All of the prizes in the class for varieties other than Marquis go to exhibitors of Reward wheat.

There is an unusually strong entry in corn in both the sections for the north half and that for the south half of Saskatchewan. In the southern section, P. G. Colquhoun, Maple Creek, was leader in dent corn and F. R. Cheeseman, Forget, in flint corn. For the northern half, H. S. Williams, MacRorie, is first in dent, and W. A. Cahoon, MacRorie, in flint.

Sheaves of grasses and other forage crops judged by T. M. Stevenson, of the field husbandry department. James and Harry Whitehead, of Saskatoon, figure prominently in the list of winners.

James Whitehead has first place in Timothy and Bromes grass, and Henry Whitehead first in alfalfa, red clover and sweet clover. Jack Darrbrough, Laura, led in western ryegrass, E. Green, Laura, in crested wheat grass, and F. P. Trowell, Saltcoats, in alsike clover. The class for sheaves of fodder corn was a large number of entries but various members of the Colquhoun family of Maple Creek take all the four prizes.

Northern Resources

Coal, Oil, Gas and Minerals Found In Peace River Block

Rich new resources of coal, oil, gas, and minerals in addition to the vast agriculture and timber lands, have been added to the future wealth of the Peace River block. It has become apparent since the inception of a survey of the area undertaken by the British Columbia government in association with the two transcontinental railway systems. While detailed reports of the surveys under the direction of Major C. E. Crysdale have not yet been presented, indications pointing to important discoveries in the lands recently ceded to the province from federal control have been brought to the attention of the provincial authorities it has been learned.

Soph: "What did Paul Revere say at the end of his ride?"

Fresh: "Who?"

WAS IDOL OF FRANCE

Interesting character study of Marshal Joseph Joffre, hero of the Marne and commander-in-chief of French armies 1915-17, who died in Paris following an illness that accumulated amputation of one leg. The marshal, bearer of British Order of Merit, and Grand Order of Legion of Honor, would have been 80 years old January 4.

RESIGNS POST

Alexis I. Rykoff, chairman of the council of peoples' commissars of the Soviet Union, who has been relieved from his position at his own request. Rykoff, who is to be succeeded by Vichenslav M. Molotov, has had several conflicts with Josef Stalin, chairman of the central executive committee of the Soviet Union, and the removal of Rykoff will bring more harmony to Soviet Union.

Trade With China

Demand For Chinese Flour and Wheat In Canadian Market

Inquiries for Canadian products have been received by L. M. Cogrove, Canadian trade commissioner at Shanghai, as a result of the recent visit of the Canadian trade delegation to China. Mr. Cogrove finds the visit helped to create an atmosphere of goodwill.

Normal trading will likely be resumed during the spring of 1931.

Pearl transactions have recently taken place in Canadian flour and Canadian wheat. Lumber exports to China have shown an increase and, due to direct steamship service from British Columbia, Canadian lumber now occupies a prominent place in the Chinese market.

Demand Equitable Rates

Will Insist On Proper Ocean Rates and Marine Insurance For Churchill Cargoes

Frank Eliason, secretary of the United Farmers of Canada, Saskatchewan section, announces the determination of the executive officers of his organization to support strongly the demand of the Saskatchewan government for the application of proper ocean rates and fair and equitable marine insurance rates on cargoes of grain and other export traffic from Churchill, on the Hudson Bay route, to British and continental ports.

Would Not Need It

A newspaper dated July 26, 1890, just found in Glasgow, Scotland, contains the following item: "Three clergymen after dinner, ate 14 quarts of nuts, and during their sitting drank six bottles of port wine, and no other liquor."

Life Story Of J. B. Tyrrell, Eminent Canadian Geologist, Makes Interesting Reading

Canada's Bacon Trade With Britain Small

Dominion Could Supply Market Now Served By Denmark

Canada supplied only \$9,169 hundred weight of bacon to the market in Great Britain of the 7,414,000 hundred weight imported in the first 10 months of 1930, according to trade returns. The value of the imports of bacon were \$34,922,063, of which the value of Canadian bacon was \$433,355.

Importation of Canadian hams by Great Britain is quoted as 70,968 hundred weight of the total imports of \$85,000 for the 10 months.

Commenting on the amount of Canadian bacon and hams placed in the British market, W. Waldron, provincial markets commissioner, said recently: "The marketing of Danish bacon in England is carried on to a great extent by the Danish Bacon Company, Smithfield, London, England. Bacon is received by this organization from 49 factories in Denmark. The company has depots at London, Hull, Leth, Liverpool, Manchester, Chester, Barrow, Newcastle, Stoke-on-Trent, Birmingham, Cardiff, Ipswich, Exeter, Portsmouth and Bristol. Denmark has concentrated on the British market, which could be very well served by Canada, as she is well established in England and her bacon is popular."

Mr. Waldron continued to say that the sales of the Danish Bacon Company in England reached \$35,000,000 each year and that all the Danish bacon imported by England was not handled by the bacon company.

Loss From Insect Pests

Damage To Saskatchewan Crops During 1929 Amounted To Over Ten Millions Dollars

The year 1929 is referred to as one comparatively free from spectacular outbreaks of insect pests. But, the annual report of the Dominion Department of Agriculture classifies as a conservative estimate of the damage by the major insect pests to the wheat crop in Saskatchewan alone \$10,012,000.

A saving of \$26,000 in one district in Alberta through a local control campaign in connection with the grub beetle crop, and another case of a saving of \$5,900 on one farm alone as the result of control work with the wheat stem sawfly, show rather conclusively the value of the work being carried out under the direction of the Entomological Branch of the Dominion Department of Agriculture.

Financial Expert Gives Cause Of Depression

Men Unable To Control Machine They Have Created

"Human beings have not learned how to control the machine they have created," declared Sir Basil Blackett, noted British financial expert, when questioned as to the cause of the present world-wide depression on his arrival at Montreal. Sir Basil is a director of the Bank of England, and chairman of the Imperial and International Communications, Limited.

Financial member on the executive council to the Viceroy of India, Sir Basil is well qualified to speak on that country, which, he said, was ready for a greater measure of responsible government. He expressed pleasure in the appointment of Viscount Willingdon, governor-general of Canada, as the next Viceroy.

Powdered Milk

Saskatchewan Government Will Encourage Manufacture Of Product

The Saskatchewan government is fostering plans to encourage the manufacture of powdered milk, as used extensively in the British Isles, by those poultry raisers who provide the British market with milk-fed chickens. The possibilities of such an industry are emphasized by W. Waldron, provincial markets commissioner, who is back from the World's Poultry Congress in London, England, and who points out that part of the manufactured product could be used for prairie-raised birds.

Bee-Keeping Profitable In Alberta

Bees have proven to be a very profitable and practical division of agriculture in Alberta and today represent one of the province's youngest and fastest-growing industries, in the opinion of H. L. Luther, head beekeeper at the Lethbridge Dominion Experimental Station.

Scientists, particularly Canadian scientists, are a very modest lot. It is often hard to get at the facts of lives to extract the real gold of romance which often underlies their careers.

For this reason a biography of that eminent Canadian geologist, J. B. Tyrrell, written by his life-long friend, W. J. Loudon, E.A., will be welcomed in that it tells a remarkably interesting story with praiseworthy clearness and throws much light on this type of explorer-geologist who has made such a big contribution to the development of Canada.

Mr. Loudon tells of the geologist as a boy in Weston, Ontario, wandering after school hours about the woods collecting specimens of rocks and ferns; developing a taste for the use of the revolver and rising, going to Upper Canada College, where his scientific bent received recognition, and thence to Toronto University, where he annexed the highest honors in geology, chemistry and allied subjects.

Then we see Tyrrell coming to Ottawa to take a position with the Geological Survey and his explorations for many years in the far West and the far North. That was in the early 'eighties, when Calgary and Edmonton were little villages, when buffalo still roamed the plains and thrills aplenty were the lot of the pioneer. Journey after journey was taken into Hudson Bay, to the foothills of the Rockies, through Saskatchewan and Manitoba, and to the outposts of latitude fifty.

Particularly important were Tyrrell's surveys in the far West. Coal mining in this area was then a dream of the future, and its subsequent development owes much to the splendid reports turned in by this great geologist. He was the first man on the continent to discover the remains of dinosaurs, those gigantic animals which millions of years ago wandered in the foothills of Alberta. At great personal risk he and his surveying party brought the first specimens of these animals to the National Museum.

Tyrrell went to the Yukon just before the great gold rush of '98. The lure of gold got into the blood. He resigned his job with the Geological Survey and with a mining friend went out to make his fortune. He nearly starved for a time, but prosperity came his way. Contracts for expert opinion upon claims were taken up, companies formed and for some years his income ran to \$30,000 a year.

But the day of placer mining was passing; he failed to get the financial support for his biggest property, he was involved in costly litigation, and by 1906 he decided to bid farewell to the Land of the Midnight Sun. In this part of the story we see Dawson as it really was, a town of wild license, of mad gambling, of hard days when gold was washed in abundance from a river bed followed by wild nights when it flowed into gambling halls, into the clutches of painted women or was squandered on the turn of a card.

Tyrrell came back from the Yukon untainted by the excesses of many who had been lured by the spell of '98. He returned to his pocket. Later he accepted a very remunerative position as chief geologist for a great Anglo-French mining corporation and continued his explorations and investigations in every part of the Dominion, but particularly in Northern Ontario. A few years before the Great War he made the most important survey of the Hudson Bay district ever undertaken at the request of Sir James Whitney. Still hale and vigorous at 72 he is today recognized as one of the greatest mining and geological experts on the continent—Ottawa Journal.

The man who tells you he is no fool may be only mistaken.

"Why did you steal this gentleman's watch?"

"Because I thought it was a gold one."—Lustige Kolner Zeitung, Cologne.

"Pointers on Bread Making"

Western Canada Flour Mills Co. Limited
Toronto - Winnipeg - Calgary.

PURITY FLOUR

WORLD HAPPENINGS BRIEFLY TOLD

An increase of £5,592,819 (about \$27,117,472) in Britain's adverse trade balance for 1930, as compared with 1929, was revealed in board of trade statistics.

The United States senate immigration committee has referred the Reed resolution providing a two-year ban on immigration to a sub-committee for consideration of changes.

Exclusion of Orientals from ownership or control of Crown lands in B.C., is sought in a petition to the provincial government by the White Canada Association of Vancouver.

Inquiries for Canadian products have been received by L. M. Cosgrove, Canadian trade commissioner to Shanghai, resulting from the Canadian trade delegation's visit.

There should be no fear regarding disposal of the 1930 B.C. canned salmon pack, in the opinion of Major J. A. Motherwell, chief supervisor of fisheries.

Three men were killed and one injured when a Royal Air Force bombing plane crashed into a dyke bank at this village on the border of Nottinghamshire and Lincolnshire, England.

The division of the waters of the St. Mary and Milk Rivers in Alberta for irrigation purposes, will again be considered by the International Joint Commission at its regular half-yearly session in Ottawa during April.

Money in circulation in the United States increased \$26,000,000 during 1930. The circulation statement of the treasury showed that on December 31, \$4,890,000,000 was going the rounds.

A contribution of \$50,000 for expenses of participation by the United States in the world's grain exhibition and conference at Regina, Sask., in 1932, was recommended by Secretary of State, Henry L. Stimson, in a report which was forwarded to congress by President Hoover.

A representative of the government will be present at the opening on March 14 of the British Empire Trade Fair at Buenos Aires, but no announcement has yet been made to the minister when Premier R. B. Bennett will send to the Argentine capital.

A Word To the Farmer

Must Produce Quality and Control Volume Of Products

In a message to eastern farmers recently issued, the Hon. R. Weir, Federal Minister, points out that to compete in world markets the farmers of Canada must: (1) continue to make progress along the lines of even more scientific farming; (2) reduce the cost of producing farm products; and (3) having a definite purpose in marketing, (a) see that no product inferior in quality goes to a foreign market, (b) produce in sufficient volume to hold a market once obtained, and (c) regulate supply to such markets so as to prevent flooding.

A Nifty Headlight

Some day the captain may turn to the first mate and ask: "Hear that headlight?" Sounds funny, but John Robits, marine expert, declares that a new type of headlight with a modified radio beam, combining light and sound, will soon make navigating in fog safe.

Impressed With North Country

American Writer is Surprised At Mining Development In Northern Manitoba.

Those coming to The Pas, Flin Flon and Sheridan to see frontier towns where life is in the raw, and "anything goes" would do well to stay away from these centres, W. L. Henderson, a writer from Chicago, Ill., visiting in the north, declared in an interview. Mr. Henderson, a free lance newspaper man, and fiction writer, has been searching for local color for a series of stories he is going to write on northern Manitoba's north country.

"The progress this country must have made in the past five years is startling," he declared, "Flin Flon and Sheridan are astounding communities to find far in the bush country north of the 54th parallel."

"I considered I was fairly well informed on Canada's north country, but I have been astounded by the signs of industrial progress, lawful behaviour of citizens, and the great future that is apparent for these towns and cities," he remarked.

"Flin Flon will rank with any mine on the continent as a modern metallurgical plant and Sheritt Gordon will prove to be a rich producer," he predicted.

(By Eva A. Tingey.)

AWARDED PEACE PRIZE

Former Secretary of State Frank Kellogg, returning from Oslo, Norway, in Oslo he was awarded the Nobel peace prize for 1929 for the famous Kellogg treaty whereby war, as a means of arbitration, was outlawed by leading powers of the world.

All-Canada Phone System

Big Telephone Project To Link Halifax With Vancouver

As a result of the co-operative arrangements between the seven main telephone systems of Canada, the work is now proceeding to realize an all-Canada transcontinental system that will make it possible for a firm in Halifax to speak with one in Vancouver, a distance of 4,319 miles, without using lines outside of the Dominion.

At the present time a long distance call from Montreal to Vancouver would require a connection first with Chicago then with Seattle and from there to Vancouver.

Up to the present time it has been impossible to link western Canada with eastern Canada by an all-Canadian route. This has been partly due to differences in standard equipment of the various companies, but chiefly to the fact that what is known as "long" long distance service requires somewhat different equipment than the "short haul" traffic, such as large size copper wire, etc.

With a view to inaugurating the all-Canada service, large size copper wires have already been installed between Toronto and Winnipeg, while the three government systems of Manitoba, Saskatchewan and Alberta are now at work constructing such heavy duty lines preparatory to the introduction of the all-Canada service. British Columbia and Maritime organizations are also undertaking the work, so that in the near future the construction of the line from coast to coast is expected to be complete.

At the rate the work is at present proceeding, it is anticipated that by the summer of 1931 long distance messages may be transmitted from Halifax to Calgary, and by the spring of 1932, it is expected the entire coast to coast service will be in operation.

Marine Merger

World-Wide United States Shipping Service To Be Created

A world-wide shipping service under the United States flag will be created through a consolidation of interests of the International Mercantile Marine Company and the Roosevelt Steamship Company, which was announced in New York.

The merger, which has been rumoured for several months, was announced by P. A. S. Franklin, president of the International Mercantile Marine Company, which was organized in 1925, will retain its corporate identity.

West Indies and Canada

Canada must assume a temporary role of "big brother" to the British West Indies if the full possibilities of trade between these parts of the Empire are to be attained, says a report issued by the Empire Club of Ottawa following a study of the subject. In other words, the report holds, Canadians must spend a greater sum in the West Indies in order that the island citizens may be placed in a position where they can become heavy purchasers.

Has Done Some Walking

After walking a distance of more than four times around the world at the Equator during the last 35 years, Fred A. Dullahan, Central Vermont railway messenger, at St. Albans, is beginning his 38th year of hiking. He has averaged 10 miles per day, 300 days per year for 35 years, giving him a total walking mileage of 105,000.

Three pennies of Edward the Elder, 901-925 were sold in London recently for \$750.

NO MORE ECZEMA

Itching Ends Right Away
"Let me tell you, I have had eczema for years. I tried everything, but nothing helped. Then I used 'Sorel's Eczema' and it was a relief. It is the best I have ever used. Itching stops, sores go. All druggists."

Moose Jaw Grain Elevator

Dominion Government Grain Elevator Has Huge Storage Capacity

"Although the normal capacity of the Dominion Government grain elevator at Moose Jaw (exclusive of the new 2,000,000 bushel addition) is generally placed at 3,500,000 bushels," says "The Optimizer," "this amount of grain has been exceeded on several occasions during the past few weeks. On October 30th last, a total of 3,584,792 bushels of various grains were in store, while on November 13th there were 3,570,504 bushels and on November 22nd, there were 3,553,604 bushels stored up."

Recipes For This Week

(By Betty Barclay)

DATE AND NUT ROLL

1 1/2 cups sugar.
1 cup thin cream.
1 cup dates, pitted and chopped.
1 cup nut meats, chopped.
Cook sugar and cream together until a little dropped in cold water forms a soft ball (238 degrees Fahrenheit). Add the chopped dates and cook two or three minutes more (242 degrees Fahrenheit). Remove from fire. Beat until candy begins to thicken. Add nut meats. Continue beating until candy is firm enough to make into a roll about one and one-half inches across. Wrap in a wet cloth and leave until cold. Remove cloth and cut crosswise in slices.

APPLE AND ORANGE SALAD

Peel and slice oranges, rejecting all white membrane. Cut wedge-shaped slices from red apples, without pips. Arrange on lettuce-covered salad plates, using alternate slices of orange and apple.

GRAPEFRUIT SALAD

Peel oranges and grapefruit and divide into segments, rejecting all white skin. Arrange a circle of orange segments on a lettuce-covered salad plate and fill centre with grapefruit segments.

Increased Hog Production

At a meeting of the Alberta Swine Breeders' Association the other day, S. G. Carlyle, livestock commissioner, remarked that present conditions in Western Canada pointed to a 100 per cent. increase in hog production next spring.

Pay For Position

In some places where tips are abundant, the employee pays the employer for the right to work for him, declared a witness during a recent hearing before the ministry of labor commission in London.

SUNDAY SCHOOL LESSON

JANUARY 25

JESUS TEMPTED

Golden Text: "In that He, Himself, hath suffered being tempted, He is able to succor them that are tempted."—Hebrews 2:18.

Lesson: Luke 3:21 to 4:30.

Devotional Reading: Romans 8:31-39.

Explanations and Comments

The Nature Of Christ's Temptations, verses 1, 2.—Yielding to the control of the Holy Spirit, which had come to Him in a special way at His baptism, Jesus went from the Jordan into the neighboring wilderness, that He might there meditate undisturbed upon the work God had given Him to do. As the story is told in Mark, and Luke, the specific temptations seem to have come at the end of the period.

The Temptation To Free Himself From the Limitations Of His Humanity, verses 3, 4.—During a long period Jesus had eaten nothing, and was hungry. The devil said unto Him, "If Thou art the Son of God, command this stone that it become bread." The word "if" may be taken in the sense of "since." Since you have the power (Jesus had just been assured of this at His baptism), why not make use of it for yourself? The question which Jesus had to settle was, should He for His personal relief use power which was given Him for the sake of the kingdom, or should He trust His Father and accept whatever sufferings His Father might send? His answer was, "Thou shalt trust."

The Temptation To Establish an Earthly Kingdom Rather Than a Spiritual Kingdom, verses 5-8.—The Jews were expecting under the Roman yoke. They expected a Messiah who would free them from Rome, and establish an earthly kingdom greater than that of their father David. What might Jesus not accomplish if He yielded to their expectations and established an earthly kingdom? All His countrymen would rally to His side if He adopted the role of a temporal Messiah; for such a Messiah they would sacrifice their lives freely and gladly. The devil showed Him all the kingdoms of the world in a moment of time. Jesus must have all this authority and the glory of them—if He would pay the price. Would it not be a quicker and easier road to heaven than the road to Calvary? To seek temporal instead of eternal good, to build up a material instead of a spiritual kingdom, would be to ally Himself with the devil, to worship before him.

The Temptation To Presume Upon God's Call, verses 9-12.—Throughout His ministry Jesus was asked for a "sign" of His divine Sonship, but here at the beginning of His work He is asked that question once and for all: conscious as He was of His oneness with His Father, He would not make trial of Him to prove this to the world. "To leap unthink from the pinnacle of the temple was to rival a mountain goat or a chamois, but it had no connection at all with spiritual power and was no sign of disposition and ability to save men from their sins. To abandon the region of men's need and work wonders, not for their relief but for mere display, was to trespass against the Father's love and to mistake the Father's intention."—Marcus Dods.

The Tempter Vanquished, verse 13.—When the devil had completed every temptation, he departed from Him for a season. "The moment that the obedience of the life was established, the mental tumult settled into peace within him."—Phillips Brooks.

A SINGLE SPOONFUL

Exponent Of Perpetual Motion

Inventor At Pacific Coast Thinks Invention Will Revolutionize Industry

The Vancouver Sun publishes the following despatch from Prince George, B.C.:

"Prince George has now an exponent of perpetual motion in the person of Nicola Schmidt, a local engineer, who claims to have invented an engine operating by a mixture of water and air, which requires the expenditure of no oil whatever. Mr. Schmidt claims that his engine will occupy about one-third as much space and weighs about one-half as much as the most efficient power plant, and that once it is installed there will be no further expense whatever. Mr. Schmidt is highly secretive as to the principle upon which his engine operates, but his business manager, H. A. Hurlbush, announces that the engine will revolutionize industry."

Saskatchewan Resources

National Resources Office For Northern Saskatchewan Located At Hudson Bay Junction

One of the three natural resources offices in Northern Saskatchewan has been located in Hudson Bay Junction. E. J. Marshall, who has been in charge of the Porcupine reserve for some years, has moved to the Junction, and has been promoted to district superintendent. His district extends from the Manitoba boundary to range 12, and from Township 35 to the south to the Churchill River. All matters relating to the forests, lands, mines and fisheries in this part of the province are to be administered from the local office.

A toy automobile, whose six-cylinder engine has real moving parts, has appeared in Paris.

Sweet apple cider is found to have about the same food value as apples.

ACID after meals

GET RID of your dread of pain after eating. Get without fear of indigestion, sour stomach, disagreeable gas or headaches.

When your food ferments, "disagreeable" lies like a lump in your stomach. It's a sign of too much acid. You need not resort to crude methods—take instead an anti-acid that will correct the condition. Phillips' Milk of Magnesia.

A spoonful of this pleasant-tasting soothing fluid neutralizes many times its volume in acid. It restores the proper alkaline balance to an acid-

souled stomach and bowels—assists these organs to function as they should.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, headaches, nausea or biliousness indicates an over-acid condition. Take a spoonful today and for several days and see how it sweetens the system. You won't be nearly so liable to colds or sickness. All druggists in the Dominion sell it in 50c bottles. Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the name Phillips on the bottle.

CHAPTER IX.—Continued.

"Always, Nick, or I wouldn't have gone with you, of course, I remember just how I felt. I watched you start, and the tears were so near that to stop them I stooped down and began fussing with those jonquils. And then—
—you came! Oh, I was so afraid you'd see! I had the strangest emotions. I was happy and frightened all in a breath—terribly happy because you'd come, even to say good-bye; and frightened because I feared my heart was in my eyes. I was almost relieved when at last you turned away, though if you hadn't looked back—if you hadn't come back, Nick, I think I should have died."

"Why, my dear, precious little Gay?" Nick's voice was husky. "I never guessed. Aren't—aren't women the very limit? Think of your springing that on me after four whole years! And I was too much of a dunce to even know that you were the one girl in the world—for me. Well, you'll have to admit that it didn't take me long to find it out!"

She looked up at him almost shyly. "Nick—do you still feel that way about me?"

He laughed, and kissed her. "I wouldn't change a hair of your head, my dear."

"Really, Nick?"

Her voice sounded so sober that he said: "Why should you ask? Haven't I been a model husband? Comp, Gay, let's not get serious. Let's forget every trouble we ever had, and be kids again. If we start now we can have a half hour at The Bird's Nest, and get back in time to kiss the boys good-night."

It was two weeks after this one Friday evening when Gay and Simeon were sitting together on the porch, that they were interrupted by a call to the telephone.

"It's a long distance for Mrs. Hast-

ings," announced the housekeeper, who had answered the ring.

Instantly Gay's heart pounded. Suppose something had happened to Nick! But it was Nick's own voice that reassured her a moment later.

"That you, Gay? How's everything?"

"All right. You frightened me, Nick. What's happened?"

His laugh came back over the wire, sounding so dearly familiar that he seemed very near.

"Nothing—that is—Gay, would you think it terrible if I—didn't come up this evening?"

"Why?"

Her voice was hollow. Perhaps Nick noticed for he said: Don't sound so mournful! Of course I want to come, but Mrs. Halliday has asked a favor, and I hate to refuse. Her husband's been called away by the death of his mother, and she's expecting friends for Sunday. She's planned to take them to Mason's Falls. They've got a new car, you know, and for some reason she doesn't want to drive it, so she asked me to go."

"I see," said Gay.

There followed the least little stalling, then Nick said: "What do you think, dear? I don't exactly like to refuse. I have to be dinner tonight, and she's waiting now to hear your verdict."

"Of course best, Nick. We'll miss you, of course; but if you feel you must—"

"Well, I sort of do feel that way; and next week you'll be coming home. Look here, you understand, Gay, don't you?"

"Anxiety was in his voice, and she replied: "Yes, I understand. Good-night, Nick. Our time must be more than up."

"Hold on a minute! You're really all right, aren't you? Not sick or anything?"

"Of course."

"And the boys?"

"Oh, they're splendid; but they'll be disappointed not to see their dad."

"You can tell 'em he's disappointed too. Gee! It's good to hear your voice! I'm getting a little tired of subsisting on letters and week-end visits. Good-night, dear."

"Good-night," said Gay quietly, and hung up.

But she didn't move for a minute. She sat there by the telephone, her heart pounding too rapidly. "Why on earth should I and so much?" she asked herself. "It's ridiculous—childish. It's not right to get dependent on one human being for all your happiness, even if he's your husband. If I let that feeling grow on me I'll become a jailer. Of course Nick couldn't refuse to go with Mrs. Halliday. This is the third time he's dined there and we'll go home on Wednesday anyway. I ought to be ashamed to mind at all!"

She drew a deep breath and went back to the piazza. It was dark, and Simeon couldn't see her face.

"Nothing, except that Nick can't come tomorrow."

She tried to speak cheerfully, but her mood was not lost on the old man.

"Ain't sick, is he?" he questioned.

"No; but our new neighbor has asked a favor he couldn't very well refuse. She has some visitors, and wants him to drive them to Mason's Falls on Sunday."

"Can't that cynical husband o' hers drive a car?"

"She usually drives herself, but she wants a chauffeur for this special trip. Her husband's mother has just died and he's away."

"M-m," growled Simeon. "So while he attends the funeral, she goes gallivanting with her fine friends? Somehow, Gay, I don't norways take to that neighbor o' yours."

A breath of relief escaped Gay's lips.

"It does me good to hear you say so, Uncle Sim. I don't take to her,

either; yet I can't lay a finger on anything really wrong with her, except her silly talk about children spoiling her career. I don't see that she has much of a career anyway, though she sing divinely, and paints, too. Nick says I'm unjust to her. Perhaps I am. I'll admit that to see her ordering a man to weed those flower beds she makes such a fuss about, sometimes angers me. She looks so neat. Nick spoke of it one day, and I just know he was wishing I looked the same, though he didn't say so."

"Good land! dearie, I wouldn't call you so 'Slovenly Peter.'"

"Well," Gay answered, with a rueful laugh, "I feel like one when I look at Mrs. Halliday! It's hard to keep up with everything when you have two babies as young as mine. I know some of my clothes are behind the times; but they're not worth sending to a dressmaker, and I'm too tired to sew myself. But—but I hate to have my husband think me—historic!"

"Shucks!" said the old man gently. "He doesn't know such thing."

"He wouldn't have thought so if it hadn't been for Mrs. Halliday," said Gay. "She's not a product of Bakersville and she's different from the few summer people who come to us. I just can't understand the Hallidays choosing such a place. They don't fit in—never will, I am sure. I suppose they'll just upset us a bit and go away—when she tires of her garden."

"The sooner, the better," growled Simeon below his breath; then added cheerfully: "Now, dearie, don't you go to gettin' worried about yer looks. I bet if you was to ask Nick outright he'd say you'd got Mrs. Halliday beat as a female."

He rocked quietly for a while. Save for the frogs down by the mill pond, the night was quiet, until suddenly, a whip-poor-will raised its voice.

"First I've heard this year," said Simeon quietly; then: "Dearie, if I was to make you a little present—say a hundred dollars, I got curious on my desk, couldn't you buy some of them airy nothin's Mrs. Halliday's, without the bother o' goin' to a dressmaker? Seems like I seen catalogues o' most everything under heaven, from this new-fangled underwear they call undies, to party dresses that ain't got no back, that say: 'I'm advisin' you to dress that a-way; but you can't be young only once, Gay, and I wouldn't want to think you was goin' without things you hanker for—not while I don't know what to do with my spare cash.'"

For a minute Gay did not speak, then she arose impulsively, and seating herself upon the old man's knee, kissed his cheek.

"Uncle Sim—you're the most understanding person in the world. My first thought, after gratitude to you, was that I mustn't take a gift like that from anybody; but I've changed my mind because I know it will make you happy to give happiness to me. I don't say I'll spend it all on clothes; but I'll freshen up a bit, and get some things the children need."

(To Be Continued.)

History Lecturer—"Can any of you tell me what makes the Tower of Pisa lean?"

Corrupt Lady: "I don't know, or I'd take some myself."

Italy expects a downward revision of agricultural wage scales.

Jugo-Slavian Youth Started From Washington Last September

Arriving at Halifax in the course of a projected journey around the world, mostly by foot, that began at Washington in September, Joseph Sekulick, slim young Jugo-Slavian, left to get a ship for Newfoundland, whence he plans to sail for England.

At an average rate of 30 miles a day, Sekulick had hiked 2,511 miles when he reached Halifax. He hopes to complete the globe-circling tour at Washington in something less than four years. The total mileage of his planned trip is 33,100. With a command of eight languages, Sekulick anticipates less difficulty in European and other countries than would otherwise be the case.

Its Main Use

At a meeting of a rural district council a deputation of farmers asked to be received. They wished to complain about the state of a main road just outside the village. They found, however, that their arguments were not received very favorably.

At last the chairman managed to get a word in.

"Look here," he said, "the road is fairly good as a whole."

"Yes," replied the spokesman of the party, "but we want to use it as a road."

Packed Into Small Space

Until 1892, the largest telephone cable contained only 50 pairs of wires; whereas a cable has now been perfected which contains 3,636 wires, packed within a diameter of only two and five-eighths inches.

VICKS' VAPORUB
FOR COLDS OF ALL THE FAMILY

Linking Up "Canada's Main Street"

By William Childs, Executive Secretary, Eastern Manitoba Development Bureau and General Secretary Manitoba-Ontario Trans-Canada Highway Association

Great hopes will be realized when Manitoba and Ontario are officially linked up with the National Highway in the fall of this year. Much energy and hard work has been gone through by the Manitoba Motor League; the Municipalities, Service Clubs, Good Roads Organizations and prominent men of both Western Ontario and Eastern Manitoba, since the year 1919, when first our people went on foot to the highway.

The day of the official opening of the highway between Kenora and Winnipeg has not yet been set, but it may safely be said that it will be probably Labor Day, in order to give the motor tourist and owner a chance to come down to the Ontario border and take in the celebrations.

The Eastern Manitoba Development Bureau, sponsors of the movement for an early Labor Day, in order to give the motor tourist and owner a chance to come down to the Ontario border and take in the celebrations.

Sight-Sound Dramatic Production Broadcast

Actors in Studio At Chicago Make Television History

Side-stepping stiletto making equipment, a small audience squeezed in between humming machinery in the control room of station WGNAP and watched from behind the scenes what is believed to have been the world premier broadcast of a synchronized sight-sound dramatic production.

Irene Wicker, Vinton Haworth and Douglas Hope, made television history in their appearance in "The Maker of Dreams."

The play went on the air to be received by those with a television and radio combination set, the effect being a close relative to a small table, but not without many flaws as yet. But the experts said "Give science time."

Everything possible was done to outlast noise because the creak of shoe-leather would have given the impression of artillery in action; the men played in stockinged feet. The girls wore soft sandals.

A Simple Treatment For Children's Colds

Cold in the head is very common at this time of year, especially in the very young. Neglect of a cold is prone to lead to serious consequences. To relieve all congestion of the system is the first step in treating a cold. This can be done by the use of Baby's Own Tablets.

For the very young, Baby's Own Tablets are the ideal means of doing this. Containing no narcotic or other harmful drugs they soothe the child's restlessness, relieve its suffering and ensure convalescence.

Baby's Own Tablets are without an equal for relieving indigestion, constipation and colic. They check diarrhoea; break up colds and simple fevers; promote health-giving sleep and make the dreaded teething period easy.

They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Thought Converted Into Electric Energy

Invention Of German Professor Something Entirely New

A machine which is said to register thought by curves has been invented by Professor Hans Berger, of the University of Jena, Germany. The invention converts thought into electric energy, which is registered on a chart. The "thought chart" looks like a weather or earthquake chart.

Deep thinking shows violent up and down, shallow thinking merely a zig-zag line. So far, nobody has been able to read the thoughts themselves, and further research will be made to discover whether an interpretation of the curve is possible.

British picture shows are visited by something like 30,000,000 people every week.

The pleasure mad are probably mad because they find no pleasure.

LOSE YOUR FAT

This sensible way

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd almost forgotten had existed—you get the merited exercise.

As a result instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate you're always wanted to do the things you've always wanted to do and needed to do to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

Little Helps For This Week

"Thou wilt show me the path of life; in Thy presence is fulness of joy."—Psalm xvi. 11.

I need Thy presence every passing hour.

What but Thy grace can toll the tempter's power? Who like Thyself my guide and stay can be?

Through cloud and sunshine, oh, abide with me.

You remember the old story of how Michael, fastened in his artist's cap, a lighted candle, which always shone brightly on his work, and kept his shadow from falling on it. If I could always have thus the light of Christ's felt presence ever falling onwards on my path, preserving the shadow of self behind and out of sight, oh, what an easy climb it would be then!—In the mist.

Relic Of "Lusitania"

A bottle covered with mussels and seaweed, containing a paper on which was written in English, "Lusitania torpedoed," will sink within ten minutes.

It was washed up on the shore of Langesand Island, off North Friesland, it was learned here recently. Those who examined the bottle are convinced of its genuineness. It has been forwarded to the Cunard Line office in London, England.

Always Ready and Reliable. Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

Valuable Manuscript

A valuable Syriac manuscript in the University of Chicago weighs 50 pounds and its parchment pages are expected to reveal new light on Christianity in the Dark Ages, for it deals with "A Collection of Selected Discourses On All the Feasts Composed by Orthodox Holy Fathers."

Your Guarantee of Greatest Value!

We Guarantee No Price Reduction On Current Models of ROGERS RADIOS

WE could not make such a guarantee against price reduction except for the fact that Rogers Radios, at their list prices, represent the greatest value that your money can buy.

At these prices Rogers Radios compete with *all* other radios on the market. We can make a move of this kind only because we know that our present prices are attractive enough to continue to give us Canada's greatest volume of radio business.

Doesn't it give you a feeling of satisfaction and confidence to buy your radio under those conditions?

You *know* that the price you pay now will be the same when your neighbour buys the same model three or four months from now.

You can depend on Rogers Radios for performance, for every new, worthwhile development in radio, for stability of prices, for maximum value for every dollar invested.

See the 1931 Perfected Screen-Grid Models at the stores listed below now!

Lowboy Model
"Rogers 630"

Only **\$198**

Complete with Rogers fully-guaranteed tubes and genuine Electro-Dynamic Speaker.

Says one enthusiastic owner: "I could not buy a better radio for double the money!"

\$19.80 down

will put this Rogers Radio in your home—now—bringing you ALL of the great entertainment of the air. A few dollars a month soon pays for it.

Attractive Gothic model. One of the greatest radio values.

Listen in—Sunday evening 9.30 p.m. Eastern Standard Time—to the Rogers-Majestic Super-Radio Broadcast over a network of 20 Canadian stations. A program of cheerful music.

Jan. 1-31-1934 C

Miss Hilda Fairhurst of Lethbridge was here this week visiting her parents.

Woods' Lavender Line specials at Antrobus' Shoe Store are a feature of this week's selling.

V. A. Bowes, assistant district passenger agent, C. P. R., Calgary, was a business visitor here on Tuesday.

Lee Lake was a big attraction on Sunday afternoon, when skating parties from the Pass towns motor ed down and enjoyed a turn on the ice. The hockey team also went down for a little practice in the open air.

CLASSIFIED ADVERTISEMENTS
NOTICE—Have you something to sell? Advertise it in this column. 2c a word, minimum charge 35c.

**PROMPT ATTENTION
To Local Deliveries**

A school trustees association for the Pass towns has been organized and Trustee Glendinning of Coleman represents the local board. Attention is directed to the two outstanding specials advertised this week by McBurney's drug store.
